

Catholic Schools [THE EQUATION FOR A SUPERIOR EDUCATION]

WHY STREAM?

We need to prepare our students for jobs of the future that require STEM skills.

What is STREAM?

- STREAM is a Diocesan led initiative that combines STEM + Religion + the Arts.
- STREAM education is not new curriculum, but rather it offers new strategies for teachers to use to teach and students to learn.
- STREAM emphasizes 21st Century Skills:

STREAM Academies

Robotics Rock 'n Roller Coaster PEAP

Arcade Academy

Invention Convention

Alternative Energy

LEGO U

Coding, and more.

What do PreK—8 students experience through STREAM?

- Students become involved in hands-on projects where they use 21st Century Skills.
- STREAM Principles integrated into all subjects through Interdisciplinary Unit Projects.
- In addition, students at all grade levels spend time each week dedicated to STREAM related activities.
- Students participate in STREAM Academies.
- Students gain STREAM exposure through field experiences with our STREAM Partners.
- Use of ESP kits
- Engineering Design Briefs uti-

Our STREAM Partners include:
